## TENDE PER ATTICI E VERANDE

Glass-roofs and conservatories awnings
Stores pour vérandas
Verandas - und Wintergarten-Markisen
Toldos para barandillas y techos de cristal

**IT** DYNAMO è una struttura di copertura per terrazze, verande e attici con tenda richiudibile ad impacchettamento, pensata per proteggere dal sole e dalla pioggia. Il telo, teso quando la tenda è aperta, è fissato a un sistema di traversi, carrelli e guide che ne consente lo scorrimento orizzontale.

**EN** DYNAMO is a covering structure for terraces, verandas and rooftop terraces, with a retractable folding awning designed to protect against sun and rain. The fabric, held taut when the awning is extended, is attached to a system of crossbars, carriages and guides that allows it to move horizontally.

**FR** DYNAMO est une structure de couverture pour terrasses, vérandas et terrasses en toiture, équipée d'un store rétractable à repliement, conçue pour protéger du soleil et de la pluie. La toile, tendue lorsque le store est déployé, est fixée à un système de traverses, de chariots et de guides qui permet son déplacement horizontal.

**DE** DYNAMO ist eine Überdachungskonstruktion für Terrassen, Veranden und Dachterrassen mit einer einfahrbaren Faltmarkise zum Schutz vor Sonne und Regen. Das bei ausgefahrener Markise gespannte Tuch ist an einem System aus Querträgern, Laufwagen und Führungsschienen befestigt, das seine horizontale Bewegung ermöglicht.

**ES** DYNAMO es una estructura de cubierta para terrazas, verandas y terrazas de áticos, con un toldo retráctil plegable diseñado para proteger del sol y la lluvia. La lona, tensada cuando el toldo está desplegado, se fija a un sistema de travesaños, carros y guías que permite su desplazamiento horizontal.
